Francisca Sanchez
Associate Superintendent
Academics & Professional Development
555 Franklin Street, 3rd Floor
San Francisco, CA
(415) 241-6121

Dear Francisca:

Leaders is available as a comprehensive alternative to JROTC, as an after school program, and in custom configurations such as a nine week course for schools dropping the driver education program. All variations are focused on developing leaders to help make our world a better one.

We are proposing to offer all three variations of *Leaders* starting in August.

1. Pilot the first year of the full *Leaders* program in one school. We would ideally offer five classes with 20-30 students per class. Attached with this letter is the *Program of Instruction* which provides detailed curriculum and classroom delivery information. We value the opportunity to pilot a comprehensive alternative to JROTC and are willing to pay all the first semester costs for this pilot experience. Financial cost for the *Leaders* pilot: \$0
2. Offer a nine week leadership education and training course. This option is a subset of the full *Leaders* program and includes the *Leadership* and *Foundations for Success* modules. Financial cost for the nine week course: \$6,500

The above \$6,500 price includes everything. If the SFUSD provides the instructor, the cost decreases to \$125 per student for program materials and \$850 per instructor for a three day train-the-trainer class.
3. Deliver the *Leaders Club* education and training after school program. This option includes the *Leadership* and *Foundations for Success* modules plus the first year electives described in the *Program of Instruction*. Financial cost for the *Leaders Club* after school program: \$10,800

The above pricing is explained in greater detail in the attached spreadsheet. We look forward to working with you to serve the students of San Francisco.

Sincerely,

Mary Wind
